

Agriplast Trellising Twine 5000M

Important to support your plants with the right strength of twine. Damage of twine during the growing season can lead to financial damage for the farmers. Twine Support offered comes in roll form which is 5000 meters long and can take the load of up to 44 KG. Delivering high UV stabilization, their solid construction also assists in achieving longer service life:

- High UV Stabilization
- Long service life
