

Agriplast Popular White and Black Mulch Film

Agriplast White and Black mulch film restrains weeds, keep some pests away, and keep soil temperature cool. How to use White and Black mulch film:

1. The upside of mulch colored in White reflects sunshine preventing plants from pests.
2. The black side of mulch downwards which can block the light, restrain the growth of weeds.
3. Controlling the humidity of the soil, avoiding hardening, and keeping airy.
4. Fertilizer under the mulch will not be washed away by heavy rain or evaporated in air.
5. As is stated above, the roots can be strengthened and the harvest will increase largely.
6. Reducing the fertilizer and pesticide, and not removing weeds so that you can save cost and labor.

Product Detail

Color	White and Black
Length	400 mtrs
Minimum Order Quantity	1 Roll
Brand	Agriplast
Transmission	Zero

Agriplast Tech India Private Limited

Survey No. 426/35-1B, Nallur Village, Opp Nallur Government High School,
Hosur Panchayat Union & Taluk, Krishnagiri Dist - 635 103, Tamil Nadu, INDIA

Customer Care : +91-81414 46666 | E-mail : support@agriplast.co.in | Website : www.agriplast.co.in

Transmission KA2011PTC057924

Water saving	up to 70%
Width	1 mtrs and 1.2 mtrs.
Thickness (microns)	25 microns
Delivery Time	Immediate
Packaging Details	Roll
